

# Description of the Network(s) NHCAR Ins. 2701.09(g)(2)

*A description of the network associated with each health benefit plan offered by the carrier, including a list of the network providers who are primary care providers, specialty care practitioners, and institutional providers by license, certification or specialty type and by county and hospital service area (emphasis added).*

This information is provided as part of Harvard Pilgrim's 2017 Health Care Access Report as required by the State of New Hampshire's network adequacy requirements. For more information specific to your plan, please refer to your Benefit Handbook, available on HPHConnect.

# Description of the Network(s)

## NHCAR Ins. 2701.09(g)(2)

- **ElevateHealth Network:**

The ElevateHealth product uses the ElevateHealth network, which is a limited network that consists of 16 hospitals in New Hampshire with a service area in all counties except for Carroll County.

- **HMO Network:**

The HMO product uses Harvard Pilgrim's comprehensive HMO network that spans across New Hampshire, Massachusetts, Maine and Connecticut.

- The NetOption product has a different provider network from the traditional HMO in that the Massachusetts network is tiered within the comprehensive HMO network based on cost.
- The ElevateHealth Options product has a different provider network from the traditional HMO in that the ElevateHealth network is tiered within the comprehensive HMO network based on cost.

- **New Hampshire-Only HMO Network:**

The New Hampshire-Only HMO product uses the whole of Harvard Pilgrim's HMO network that is in New Hampshire.
