

Pediatric Dental Rider - HMO

Harvard Pilgrim Health Care, Inc.
(for children up to the age of 19)
MASSACHUSETTS

The pediatric dental rider identifies the Covered Dental Services as described below for Dependents up to the age of 19 enrolled in the HMO plan (the Plan). Benefits under this rider terminate at the end of the month the Dependent turns 19.

Because this rider is part of your Evidence of Coverage and is a legal document, we want to give you information about the document that will help you understand it. Certain capitalized words have special meanings. We have defined these words in either the *Benefit Handbook* in *Section II: Glossary* or in this rider in *Section 5: Defined Terms for Pediatric Dental Services*.

When we use the words "we," "us," and "our" in this document, we are referring to Harvard Pilgrim Health Care. When we use the words "you" and "your" we are referring to people who are Dependents, as the term is defined in the *Benefit Handbook* in *Section II: Glossary*.

SECTION 1: ACCESSING PEDIATRIC DENTAL SERVICES

Network Benefits

These Covered Benefits apply when you choose to obtain Covered Dental Services from a Plan Dental Provider. You generally are required to pay less to the provider than you would pay for services from a Non-Plan Dental Provider. Network Benefits are determined based on the contracted fee for each Covered Dental Service. In no event, will you be required to pay a Plan Dental Provider an amount for a Covered Dental Service in excess of the contracted fee.

In order for Covered Dental Services to be paid as Network Benefits, you must obtain all Covered Dental Services directly from or through a Plan Dental Provider.

You must always verify the participation status of a Plan Dental Provider prior to seeking services. From time to time, the participation status of a provider may change. You can verify the participation status by calling us and/or the provider. If necessary, we can provide assistance in referring you to a Plan Dental Provider.

A *Directory of Network Dental Providers* is available online at <https://www.harvardpilgrim.org/public/pediatric-dental-coverage>. You can also call *Customer Service* at 1-800-460-0315 to determine which providers participate in the Network. The telephone number for *Customer Service* is on your ID card.

Non-Plan Dental Providers

If you are unable to find a Plan Dental Provider to render your care, you can obtain Covered Dental Services from a Non-Plan Dental Provider. Non-Plan Dental Providers are reimbursed at the Usual and Customary fee for similarly situated Plan Dental Providers for each Covered Dental Service. The actual charge made by a Non-Plan Dental Provider for a Covered Dental Service may exceed the Usual and Customary fee. As a result, you may be required to pay a Non-Plan Dental Provider an amount for a

Covered Dental Service in excess of the Usual and Customary fee. In addition, when you obtain Covered Dental Services from Non-Plan Dental Providers, you must file a claim with us to be reimbursed for Eligible Dental Expenses.

Covered Dental Services

You are eligible for Covered Dental Services listed in this rider if such Dental Services are Necessary and are provided by or under the direction of a Dental Provider.

Covered Benefits are available only for Necessary Dental Services. The fact that a Dental Provider has performed or prescribed a procedure or treatment, or the fact that it may be the only available treatment, for a dental disease does not mean that the procedure or treatment is a Covered Dental Service under this rider.

Pre-Treatment Estimate

If the charge for a Dental Service is expected to exceed \$300 or if a dental exam reveals the need for fixed bridgework, you may notify us of such treatment before treatment begins and receive a pre-treatment estimate. If you desire a pre-treatment estimate, you or your Dental Provider should send a notice to us, via claim form, within 20 calendar days of the exam. If requested, the Dental Provider must provide us with dental x-rays, study models or other information necessary to evaluate the treatment plan for purposes of benefit determination.

We will determine if the proposed treatment is a Covered Dental Service and will estimate the amount of payment. The estimate of Covered Benefits payable will be sent to the Dental Provider and will be subject to all terms, conditions and provisions of the Policy. Clinical situations that can be effectively treated by a less costly, clinically acceptable alternative procedure will be assigned a benefit based on the less costly procedure.

A pre-treatment estimate of Covered Benefits is not an agreement to pay for expenses. This procedure lets you know in advance approximately what portion of the expenses will be considered for payment.

Pre-Authorization

Pre-authorization is required for all Orthodontic Services. Speak to your Dental Provider about obtaining a pre-authorization before Orthodontic Services are rendered. You or your Dental Provider can request pre-authorization for these services by contacting us at **1-800-460-0315**. If you do not obtain a pre-authorization, we have a right to deny your claim for failure to comply with this requirement.

If a treatment plan is not submitted, you will be responsible for payment of any dental treatment not approved by us. Clinical situations that can be effectively treated by a less costly, clinically acceptable alternative procedure will be assigned a Benefit based on the less costly procedure.

SECTION 2: BENEFITS FOR PEDIATRIC DENTAL SERVICES

Covered Benefits are provided for the Dental Services stated in this Section when such services are:

- A. Necessary.
- B. Provided by or under the direction of a Dental Provider.
- C. The least costly clinically appropriate service. Clinical situations that can be effectively treated by a less costly, clinically appropriate alternative procedure will be covered based on the least costly procedure.
- D. Not excluded as described in *Section 3: Pediatric Dental Services exclusions* of this rider.

SECTION 6: DEFINED TERMS FOR PEDIATRIC DENTAL SERVICES

The following definitions are in addition to those listed in *Section II: Glossary of the Benefit Handbook*:

Covered Dental Service – a Dental Service or Dental Procedure for which Covered Benefits are provided under this rider.

Dental Provider - any dentist or dental practitioner who is duly licensed and qualified under the law of jurisdiction in which treatment is received to render Dental Services, perform dental surgery or administer anesthetics for dental surgery.

Dental Service or Dental Procedures - dental care or treatment provided by a Dental Provider to a Dependent up to the age of 19 while the Policy is in effect, provided such care or treatment is recognized by us as a generally accepted form of care or treatment according to prevailing standards of dental practice.

Dental Services Deductible - the amount a Dependent up to the age of 19 must pay for Covered Dental Services in a Plan Year or Calendar Year before we will begin paying for Covered Benefits in that year.

Dental Services Out-of-Pocket Maximum – a limit on the amount of Copayments, Coinsurance and Deductibles that you must pay for Covered Benefits in a Calendar Year or Plan Year.

Eligible Dental Expenses - Eligible Dental Expenses for Covered Dental Services, incurred while the Policy is in effect, are determined as stated below:

- For Network Benefits, when Covered Dental Services are received from Plan Dental Providers, Eligible Dental Expenses are our contracted fee(s) for Covered Dental Services with that provider.
- For Non-Network Benefits, when Covered Dental Services are received from Non-Plan Dental Providers, Eligible Dental Expenses are the lesser of the Usual and Customary fees, as defined below or the billed charges.

Necessary - Dental Services and supplies under this rider which are determined by us through case-by-case assessments of care based on accepted dental practices to be appropriate and are all of the following:

- Necessary to meet the basic dental needs of the Dependent up to age 19.
- Rendered in the most cost-efficient manner and type of setting appropriate for the delivery of the Dental Service.
- Consistent in type, frequency and duration of treatment with scientifically based guidelines of national clinical, research, or health care coverage organizations or governmental agencies that are accepted by us.
- Consistent with the diagnosis of the condition.
- Required for reasons other than the convenience of the Dependent or his or her Dental Provider.
- Demonstrated through prevailing peer-reviewed dental literature to be either:
 - Safe and effective for treating or diagnosing the condition or sickness for which their use is proposed; or
 - Safe with promising efficacy
 - For treating a life threatening dental disease or condition.
 - Provided in a clinically controlled research setting.
 - Using a specific research protocol that meets standards equivalent to those defined by the *National Institutes of Health*.

(For the purpose of this definition, the term life threatening is used to describe dental diseases or sicknesses or conditions, which are more likely than not to cause death within one year of the date of the request for treatment.)

The fact that a Dental Provider has performed or prescribed a procedure or treatment or the fact that it may be the only treatment for a particular dental disease does not mean that it is a Necessary Covered Dental Service as defined in this rider. The definition of Necessary used in this rider relates only to Benefits under this rider and differs from the way in which a Dental Provider engaged in the practice of dentistry may define necessary.

Usual, Customary and Reasonable Charge - Usual, Customary and Reasonable Charge is the maximum amount that we will pay for services from Dental Providers. The Usual, Customary and Reasonable Charge is calculated using the 80th percentile of provider reimbursement for services in the same geographic area under the FAIR Health database.
