Products and Programs

Tufts Medicare Preferred Group Supplement Update

As we shared with you in a **previous communication**, Tufts Medicare Preferred Group Supplement Plans will no longer be offered as of January 1, 2025. Instead, Harvard Pilgrim Health Care and its Medicare Enhance product will be offered for group retiree coverage.

What You Need to Know

- If an employer group's current Tufts Medicare Preferred Group Supplement Plan includes a Prescription Drug Plan (PDP) and has at least 25 retirees, they will transition to Medicare Enhance with Aetna Medicare Rx offered by SilverScript (PDP).
- If the employer group has less than 25 retirees, it does not qualify for the Aetna PDP. These groups can transfer to Medicare Enhance, which has an optional prescription drug rider.

Reminder: Medicare Part D Creditable Coverage

The Medicare Modernization Act (MMA) requires entities (Employers and Union groups) who offer prescription drug coverage to Medicare Part D eligible individuals to disclose to both CMS and members whether the drug coverage provided is "creditable prescription drug coverage."
