

Save money with low-cost providers

Costs for medical tests and procedures often vary widely with no significant difference in quality. So why pay more if you don't have to?

When your Harvard Pilgrim plan has LP (low-cost provider) benefits, you can pay lower out-of-pocket costs for lab and outpatient surgery services when you receive them at select LP facilities.

When you use LP facilities:

The deductible will not apply.

Lab tests, excluding genetic testing, are covered at no charge to you.

You'll pay a copayment for outpatient surgery.

Read on for more details.

For the most up-to-date information on LP facilities, visit [harvardpilgrim.org](https://www.harvardpilgrim.org).

- Click on "Find a Provider" and choose the directory for your plan under "LP (Low-Cost Provider) Plans."
- Under "Search by Provider Type," Select "Other Care Providers."
- At the next screen, under "Specialty," choose either "General Laboratory" or "Ambulatory Surgical Center."
- LP facilities will be shown with an "LP (Low-Cost Provider)" designation.

This list may change at any time without prior notice. Refer to the online provider directory at [harvardpilgrim.org](https://www.harvardpilgrim.org) for the latest information.

Ambulatory Surgical Centers

Your plan will cover outpatient surgery with a copayment when you have it performed at one of the following locations. HMO plans require your primary care provider's or specialist's referral. See the Schedule of Benefits for details.
