

Changing Provider Enrollment Information

Requirement

All changes to provider enrollment must be made on a prospective basis. It is highly recommended that you use the Provider Change Form that outlines the required information and will help to expedite your request. The same procedures apply whether participation is with commercial or Medicare products. However, supplemental information may be required for providers participating in Medicare products.

Provider Number Guidelines

The following guidelines apply to provider numbers:

- A clinician with only one tax identification (Tax ID) number can only have one provider number.
- A clinician or group practice with more than one Tax ID number participating in more than one local care unit (LCU) must be enrolled in the Harvard Pilgrim claims system with a separate provider number for each Tax ID/LCU relationship.
- PCPs who have multiple provider numbers can only carry one member panel regardless of the number of provider IDs.
- Specialists with more than one Tax ID number who participate in more than one LCU must be enrolled in the Harvard Pilgrim claims system with a separate provider number for each Tax ID/LCU relationship.
- Providers are enrolled in Harvard Pilgrim's provider database consistent with their National Provider Identifier (NPI) and business relationships they establish with facilities, organizations, and clinicians included in the Harvard Pilgrim network.
- Facility and ancillary providers who have subparted by specialty or location, must notify Harvard Pilgrim of each NPI that will be submitted to Harvard Pilgrim by email at PPC@point32health.org.

Local Care Unit (LCU) Changes

Provider changes related to LCU affiliation include any one or combination of:

- Adding an LCU and provider number
- Terminating from an LCU
- Changing an LCU
- Terminating from Harvard Pilgrim

Notification Requirement

In all cases, a minimum of 60 days written notice to Harvard Pilgrim is required. To the extent that any provision of this Harvard Pilgrim Health Care manual is inconsistent with any provision of your contract with Harvard Pilgrim Health Care, the terms of the contract shall control.

Changes *Not* Related to LCU Affiliations

Changes not related to LCU affiliation may include any one or combination of:

- Practice address or practice name¹
- Billing address
- Close member panel
- Addition or change to tax identification number (TIN)¹
- Correct Harvard Pilgrim demographic information errors
- Change practice model to concierge style

Notification Requirement

In all cases, 30 days written prospective notice to Harvard Pilgrim is required (except concierge style — 90 days required).

Medicare Participants

If you participate in our Medicare products and are making a change to your provider enrollment information, please notify us of your participation in the Medicare products. Harvard Pilgrim's Provider Change Form includes fields to note: your participation, National Provider Identified (NPI), TIN, Medicare numbers and LCU name (if applicable). If your practice is a messenger model, we will require additional documentation to confirm the participation status of individual practitioners. Please make certain that your change request includes this information.

Additionally, if you are part of a LCU in which only a portion of providers participate in the Medicare program, please confirm your participation with LCU leadership.

¹ *Submission of a new W-9 form is required with practice name change and/or tax identification number change.*

Provider Change Form

a Point32Health company

Complete ALL applicable information. Incomplete submissions may be returned unprocessed. NOT for new providers.
